3. CHAIRMAN'S LETTER

25 May 2009

Dear Investor,

On behalf of the Directors of Baraka, I am pleased to present this Prospectus to you.

At a General Meeting held on 18 May 2009, Shareholders approved a number of resolutions to give effect to a proposed recapitalisation of the Company. The recapitalisation will provide new working capital for the Company and facilitate the Company's Shares being reinstated to Official Quotation on the ASX.

This Prospectus seeks to raise up to \$2,000,000 at 0.2 cents per Share. Applications received from shareholders that hold at least 100,000 fully paid ordinary shares in Cervantes Corporation Limited and from Shareholders of Baraka will be given priority under the Offer. Further information about the Offer pursuant to this Prospectus is summarised in Section 4.

The funds raised from the Offer will be used to fund the initial exploration program proposed by the Company on the Georgina Basin tenements the subject of the recently announced joint venture with Northern Territory Oil Limited.

Subject to the successful completion of the Offer, this exploration program is expected to include an initial geochemical survey of targeted areas within the blocks and the acquisition of seismic to delineate drill targets. If this work is successful, exploration drilling will then be undertaken in subsequent years. More detail of the use of funds raised from the Offer is included in Section 6.

Further information regarding the Company's business is contained in Section 5 of this Prospectus.

Details about the risks of an investment of this type are contained in Section 8 of this Prospectus. Investors should obtain professional investment advice before deciding to invest. Please read this document carefully before making your investment decision.

I welcome you to consider the terms of the Offer contained in this Prospectus and look forward to welcoming you as a Shareholder of the Company.

**MR BARRY MACKINNON
CHAIRMAN
BARAKA PETROLEUM LIMITED**

4. DETAILS OF THE OFFER

4.1 Offer

This Prospectus invites investors to apply for a total of up to 1,000,000,000 Shares at an issue price of 0.2 cents per Share to raise up to \$2,000,000 before costs.

All of the Shares offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 7 for further information regarding the rights and liabilities attaching to the Shares.

The purpose of the Offer and the use of funds raised are set out in Section 6 of this Prospectus.

4.2 Application for Shares

Applications for Shares must be made on an Application Form attached to or accompanying this Prospectus.

Applications for Shares must be for parcels of at least 1,000,000 Shares with payment for the Shares made in full at \$2,000, being 0.2 cents per Share.

Completed Application Forms and accompanying cheques, made payable to "**Baraka Petroleum Limited – Share Offer Account**" and crossed "**Not Negotiable**", must be mailed to:

Baraka Petroleum Limited
c/o Zurich Securities Pty Ltd
PO Box 1196
SOUTH PERTH WA 6951
AUSTRALIA

Completed Application Forms must reach the address set out above by no later than the Closing Date. The Company reserves the right to extend the Closing Date or close the Offer early without notice.

4.3 Minimum Subscription

The minimum subscription to be raised pursuant to this Prospectus is \$1,200,000 (**Minimum Subscription**).

If the minimum subscription has not been raised within four (4) months after the date of this Prospectus, all applications will be dealt with in accordance with the Corporations Act.

4.4 Maximum Subscription

The maximum subscription to be raised pursuant to this Prospectus is \$2,000,000 (**Maximum Subscription**).

4.5 Underwriter

The Offer is not underwritten.

4.6 Allotment of Shares

The Directors will determine the allottees of all the Shares in their sole discretion. The Directors reserve the right to reject any application or to allocate any Applicant fewer Shares than the number applied for.

In accordance with the Lead Manager Agreement between the Company and Zurich dated on or about 1 April 2009, the Directors have agreed to give priority to applications for Shares received from the following parties:

- (a) firstly, from shareholders of Cervantes, provided that the applicant holds a minimum of 100,000 fully paid ordinary shares in the capital of Cervantes;
- (b) secondly, from Shareholders of Baraka;
- (c) thirdly, from clients of Zurich; and
- (d) fourthly, from other parties not covered by paragraphs (a) to (c) to the extent that the minimum subscription as required by ASX has not been raised from the applicants referred to in paragraphs (a) to (c).

Shares issued pursuant to the Offer will be allotted on a progressive basis, subject to the Offer achieving Minimum Subscription. Where the number of Shares issued is less than the number applied for, or where no allotment is made, surplus application monies will be refunded without any interest to the Applicant as soon as practicable after the Closing Date.

Pending the allotment and issue of the Shares or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

4.7 Australian Securities Exchange Listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If approval is not obtained from ASX before the expiration of 3 months after the date of issue of the Prospectus (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

4.8 Restrictions on the Distribution of the Prospectus

The distribution of this Prospectus outside the Commonwealth of Australia may be restricted by law.

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any

formalities need to be observed should they wish to make an application to take up Shares on the basis of this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

4.9 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will not be issuing share certificates. The Company proposes to participate in CHES and operate an electronic sub-register for those investors who have a sponsoring stockbroker and, for investors who do not wish to participate through CHES, an issuer sponsored sub-register operated by the Company. The two sub-registers together will make up the Company's register of Shares. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with separate statements (similar to a bank account statement) that set out the number of Shares allotted to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

4.10 Privacy Act

If you complete an application for Shares, you will be providing personal information to the Company (directly or to the Company's share registry). The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder, facilitate distribution payments and corporate communications to you as a Shareholder and carry out administration.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Company's share registry.

You can access, correct and update the personal information that we hold about you. Please contact the Company or its share registry if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the Privacy Act 1988 (Cth) (as amended), the Corporations Act and certain rules such as the ASTC Settlement Rules. You should note that if you do not provide the information required on the application for Shares, the Company may not be able to accept or process your application.

4.11 Enquiries

Any questions concerning the Offer should be directed to the Company Secretary Mr James Moran on (08) 9486 7001 or email j.moran@barakapetroleum.com or to Collin Vost at Zurich Securities Pty Ltd on (08) 9363 1700 or email cvost@zurichsecurities.com.au.

5. INFORMATION DEEMED TO BE INCORPORATED IN PROSPECTUS

5.1 Short Form Prospectus

This Prospectus is a short form prospectus issued in accordance with section 712 of the Corporations Act. This means that this Prospectus does not of itself contain all the information that is generally required to be set out in a document of this type, however, it incorporates by reference information contained in the Notice of Meeting that has been lodged with the ASX.

The information to be incorporated by reference into this Prospectus is summarised below in Section 5.3 and will primarily be of interest to investors and their professional advisers or analysts.

Investors and their professional advisers are able to obtain a copy of the Notice of Meeting free of charge by contacting the Company at its registered office during normal business hours during the Offer Period. The Notice of Meeting will also be available by searching the ASIC's records in relation to the Company, or by accessing the Company's announcements on the ASX website, www.asx.com.au.

5.2 Background to the Offer

The Shares of Baraka have been suspended from trading on ASX since the Directors of Baraka appointed Joint and Several Voluntary Administrators of the Company pursuant to section 436A of the Corporations Act 2001 on 30 April 2008.

At a reconvened meeting of creditors of the Company held on 31 July 2008, creditors passed a resolution terminating the Voluntary Administration and returning control of the Company to the Board.

Since the end of the Voluntary Administration, the Board has worked towards achieving a relisting of Baraka Shares on ASX.

On 5 March 2009, Baraka announced that it had signed agreements that together would lead to the recapitalisation of the Company. The intent of the agreements was to achieve the re-quotations of Baraka's Shares on the ASX at the earliest opportunity.

Baraka has now executed definitive agreements to implement the proposals outlined in the announcement of 5 March 2009. A summary of the agreements is set out in Section 5.3 below.

5.3 Summary of Information Deemed to be Incorporated

Set out below is a summary of the information contained in the Notice of Meeting that is deemed to be incorporated in this Prospectus to assist investors and their professional advisers to determine whether they need to obtain a copy of the Notice of Meeting for the purposes of making an informed investment decision in relation to the Shares.

The Notice of Meeting contains information relating to the recapitalisation proposal to achieve the re-quotations of Baraka Shares on ASX (**Recapitalisation**).

As part of the Recapitalisation, the Company entered into the following material agreements, the terms of which are summarised in the Notice of Meeting and also in Section 9.2 of this Prospectus:

- (a) Loan Agreement with Cervantes whereby Cervantes agreed to advance up to \$100,000 to Baraka as an interest free loan repayable 6 months after draw down;
- (b) Deed of Charge with Cervantes creating a floating charge over all of the assets of Baraka to secure the loan provided by Cervantes under the Loan Agreement; and
- (c) Lead Manager Agreement with Zurich for Zurich to assist Baraka on a best endeavours basis to complete the Offer for the purposes of reinstating the Shares to quotation on ASX.

The Notice of Meeting also includes information relating to the following resolutions which were put to Shareholders at the General Meeting:

- (a) Issue of Shares under this Offer;
- (b) Placement of 25,000,000 Shares to Cervantes;
- (c) Placement of 25,000,000 Shares and 25,000,000 Options to Zurich;
- (d) Placement of 8,000,000 Shares to David Valentino;
- (e) Issue of 30,000,000 Shares to Directors, former directors and Officers of the Company;
- (f) Participation of Directors and related parties in the Offer;
- (g) Election of Collin Vost as a Director; and
- (h) Election of Barry MacKinnon as a Director.

5.4 Activities Since the Date of the Notice of Meeting

At the General Meeting of Shareholders held on 18 May 2009, Shareholders approved the necessary resolutions to give effect to the Recapitalisation.

Further information about the above resolutions and the Recapitalisation is set out in the notice of meeting as released to ASX on 17 April 2009.

On 22 May 2009, the Company announced that it had signed agreements to earn a 75% interest in EP 127 and EP 128 in the Georgina Basin in the Northern Territory.

At the same time, Baraka also announced that the Board had decided to relinquish the Company's interests in blocks Ta-11 and Ta-12 in the Taoudeni Basin in Mauritania.

The Georgina Basin is an underexplored region. Previous test wells drilled in the Georgina Basin have demonstrated oil shows and good quality source rocks, seals and reservoirs.

EP 127 and EP 128 cover approximately 7.4 million acres in the south-central part of the Northern Territory, to the south-east of Tennant Creek and the north-east of Alice Springs.

Under the terms of the farmin agreements, Baraka will be the operator of the joint venture over each of EP 127 and EP 128 and may earn 75% of the permits

by funding all costs of exploration on the permits in accordance with the terms of grant up to completion of an exploration well.

Further information about EP 127 and EP 128 and the farmin agreement is set out in the Company's announcement to ASX dated 22 May 2009.

7. RIGHTS AND LIABILITIES ATTACHING TO SHARES

The following is a summary of the more significant rights and liabilities attaching to Shares to be issued pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

General Meetings

The ASX and each Shareholder and Director is entitled to receive notice of, and to attend, any general meeting of the Company. Two Shareholders must be present to constitute a quorum for a general meeting. The Company is obliged to convene and hold an annual general meeting.

Shareholders may requisition meetings in accordance with Section 249D of the Corporations Act and the Constitution of the Company.

Voting Rights

Subject to restrictions on voting from time to time affecting any class of shares in the Company, and any restrictions imposed by the Corporations Act, Shares in the Company carry the right to cast one vote on a show of hands and, on a poll, one vote for each fully paid Share held, and for each partly paid share held, a vote having the same proportionate value as the proportion to which the shares have been paid up. Voting may be in person or by proxy, attorney or representative.

Dividend Rights

If the Board determines that a dividend is payable, it will be paid on all shares proportionate to the total amount for the time being paid on each share. Such dividend payment is subject to the rights and restrictions on the holders of shares created or raised under any special dividend arrangements.

Subject to the ASX Listing Rules, the Board has the power to capitalise and distribute the whole or part of the undivided profits of the Company or standing to the credit of any reserve or other account and which is available for distribution. The Board has the power to decide whether to pay Shareholders an interim dividend on account of the next forthcoming dividend. Any distribution may be paid otherwise than in cash as specified in the Constitution.

No dividend is payable except out of Company profits and no dividend or other monies paid in relation to a share will carry interest as against the Company.

Winding-Up

Subject to any rights or restrictions attached to a class of shares, on a winding up of the Company, any surplus must be divided among the members in the

proportions which the amount paid (including amounts credited) on the shares of a member is of the total amounts paid and payable (including amounts credited) on the shares of all members.

Transfer of Shares

Shares may be transferred in any manner required or permitted by the ASX Listing Rules or the ASTC Settlement Rules and by any instrument in writing in any usual or common form or in any other form that the Board approves. The Board may only refuse to register a transfer of securities of the Company as permitted by the ASX Listing Rules or the ASTC Settlement Rules.

Future Increase in Capital

The allotment and issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

Variation of Rights

Under Section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

The rights and restrictions attaching to any class of shares (unless provided by the terms of issue of the shares of that class), can only be varied with the consent in writing of Shareholders with at least three-quarters of the votes in that class, or with the sanction of a special resolution passed at a separate meeting of the holders of shares of that class.

8. RISK FACTORS

Potential investors in the Company should be aware that subscribing for shares involves a number of risks. The risk factors outlined in this Section and elsewhere in this Prospectus should be carefully considered by investors when evaluating an investment in the Company. In addition, investors should appreciate that the value of Shares on ASX may rise or fall depending on a range of factors beyond the control of the Company. This is especially the case with companies undertaking petroleum exploration activities.

Any of the factors set out in this Section or any other factors identified in this Prospectus may materially affect the financial performance of the Company and the market price of the Shares. To that extent the Shares carry no guarantee with respect to the payment of dividends, return on capital or the price at which those Shares will trade on ASX.

The Directors consider that an investment in the Company should be considered speculative due to:

- (a) the recent volatility in the market price of publicly listed entities on world stock markets generally, and of petroleum exploration companies in particular; and
- (b) the speculative nature of petroleum exploration activities.

While the Company plans to take prudent measures to safeguard from, or mitigate its exposure to these risks, many of the risks are outside of the Company's control.

There are a number of risk factors that investors should consider before deciding whether or not to invest in the Offer. The principal risk factors include, but are not limited to, the following:

8.1 Exploration and development risks

Baraka's future value is materially dependent on the success or otherwise of its exploration activities, which are directed towards the search for, evaluation of and development of oil and gas reserves. Exploration for, and development of, oil and gas reserves is speculative and involves a significant degree of risk. Whilst the rewards can be substantial, there is no guarantee that exploration on Baraka's oil and gas permits or licenses will lead to commercial discovery or, if there is such a discovery, that Baraka will be able to develop the oil and/or gas reserves on an economic basis and produce such reserves as intended.

8.2 Failure to meet work obligations

Unforeseen circumstances or circumstances beyond the control of the Company may cause delays to work programmes. This may lead to commitments to licensing authorities not being met on time. If the Company fails to renegotiate the timing of commitments in these circumstances, title may be revoked by the licensing authorities.

8.3 Risks of negative results of evaluations

The oil and gas permits or licenses in which the Company has an interest are generally at an early stage of exploration. Negative results from initial analytical programmes may result in downgrading of the prospectivity of those permits or licenses. The areas may therefore be considered not to merit further

investment and the permits could be surrendered (subject to any necessary approval of the licensing authorities) prior to drilling of an exploratory well, or at subsequent stages.

8.4 Management

The success of the Company is largely dependent on the performance of its Directors and management staff. The loss of the services of these persons may have a materially adverse effect on the Company's business and prospects. There is no assurance the Company can retain the services of its Directors, management staff or other qualified personnel required to operate its business. Failure to do so could have a material adverse effect on the Company and its prospects. Difficulties may also be experienced in certain jurisdictions in employing and retaining qualified personnel who are willing to work in such jurisdictions.

8.5 Financing risks

The further development of the Company's properties after the exploration activities that are to be funded by the proceeds of the Offer will depend upon the Company's ability to obtain further financing or through finding other means to develop such properties such as the farming-out of projects. There is no assurance that the Company will be successful in obtaining the required financing or farming-out its projects in the future as required.

8.6 Valuations

Neither the Company nor its Directors and officers make any representation in this Prospectus with regards to a valuation of any of the permits or licenses. Intending investors and their advisers should make their own assessment as to the value of the Company's permits or licenses.

8.7 Contractual risks

All agreements are subject to interpretation and some agreements are not binding. There is no guarantee that the Company will be able to enforce all its rights under its agreements or arrangements with third parties.

8.8 Legal systems

Some of the jurisdictions in which the Company has operated in the past and may operate in the future have less developed legal systems than more established economies, which may result in risks such as: (i) potential difficulties in obtaining effective legal redress in the courts of such jurisdictions, whether in respect of a breach of law or regulation, or in an ownership dispute; (ii) a higher degree of discretion on the part of governmental authorities; (iii) the lack of judicial or administrative guidance on interpreting applicable rules and regulations; (iv) inconsistencies or conflicts between and within various laws, regulations, decrees, orders and resolutions; or (v) relative inexperience of the judiciary and courts in such matters. In certain jurisdictions, the commitment of local business people, government officials and agencies and the judicial system to abide by legal requirements and negotiated agreements may be more uncertain, creating particular concerns with respect to licenses and agreements for business. These may be susceptible to revision or cancellation and legal redress may be uncertain or delayed.

8.9 Uninsured risks

The Company or other companies in the group may become subject to liabilities against which it cannot insure or against which it may elect not to insure because of high premium costs or other reasons. The payment of such liabilities would reduce the funds available for exploration activities.

8.10 Environmental and other regulatory requirements

Existing and possible future environmental legislation, regulations and actions could cause additional expense, capital expenditures, restrictions and delays in the activities of the Company, the extent of which cannot be predicted. Before exploration and production activity can commence on any property, the Company must obtain regulatory approvals and there is no assurance that such approvals will be obtained. Although the Company believes the exploration activities of the Company are currently carried out in accordance with all applicable rules and regulations, no assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner which could limit or curtail exploration, production or development.

8.11 Economic and political risk

Some of the Company's past operations, and projects that the Company may consider acquiring in the future, are in foreign jurisdictions where there may be a number of associated risks over which it will have no, or limited, control. These may include economic, social, or political instability or change (including coup d'etat), hyperinflation, currency non-convertibility or instability and changes of laws affecting foreign ownership, government participation, taxation, working conditions, rates of exchange, exchange control, exploration licensing and petroleum export licensing and export duties as well as government control over domestic oil and gas pricing.

8.12 Competition

There is aggressive competition within the petroleum industry for the discovery and acquisition of properties considered to have commercial potential. The Company competes with other exploration and production companies, many of which have greater financial resources than the Company, for the acquisition of properties, leases and other interests as well as for the recruitment and retention of qualified employees and other personnel. Such factors may result in the Company being unable to secure new exploration areas or recruit and retain key staff.

8.13 Commodity prices

The market price of hydrocarbon products is volatile and cannot be controlled. If the price of hydrocarbons should drop significantly and remain depressed, the economic prospects of the projects which the Company has an interest in could be significantly reduced or rendered uneconomic. There is no assurance that, even if significant quantities of hydrocarbon products are discovered, a profitable market may exist for their sale. Factors beyond the control of the Company may affect the marketability of any commodity discovered. Oil and gas prices have fluctuated widely in recent years. The marketability of oil and gas is also affected by numerous other factors beyond the control of the Company, including government regulations relating to royalties, allowable production and importing and exporting of oil and gas and petroleum products, the effect of which cannot be accurately predicted.

8.14 General economic climate

General economic factors such as inflation, currency fluctuation, interest rates, supply and demand of capital and industrial disruption have an impact on business costs, commodity prices and stock market prices. The Company's operations, business and profitability can be affected by these factors, which are beyond its control.

8.15 Share market conditions

There are general risks associated with any investment. The price of the Company's Shares will be subject to varied and often unpredictable influences on the market for equities in general and oil and gas exploration stocks in particular.

8.16 Exchange rate risk

The Company's capital expenditure, potential future hydrocarbon revenue (if any), ongoing expenditure and cash investments are sometimes denominated in overseas currencies, exposing the Company to the fluctuations and volatility of the rate of exchange between the Australian dollar and overseas currencies as determined in international markets. Any movements in the Australian dollar relative to foreign currencies may have an adverse effect on the Company and its ability to fund its projects.

9.2 Material Contracts

(a) Lead Manager Agreement

On or about 1 April 2009, Baraka appointed Zurich as the exclusive lead manager in relation to the Recapitalisation (which includes the Offer) (**Lead Manager Agreement**).

The Lead Manager Agreement provides for Zurich to assist Baraka on a best endeavours basis to complete an issue of Shares at a minimum issue price of 0.2 cents per Share to raise a minimum of \$1,200,000 and a maximum of \$2,000,000, or on terms as are otherwise required by ASX for the purposes of reinstating the Shares to Official Quotation on ASX.

Under the Lead Manager Agreement, Zurich will be entitled to a fee of 6% of the amount raised pursuant to the Offer. In addition, Baraka agrees to issue 25,000,000 Shares at a deemed issue price of 0.1 cents per Share and 25,000,000 free attaching Options to Zurich, subject to successful completion of the Offer.

The Lead Manager Agreement also provides that Zurich may appoint two directors to the Board of Baraka. Shareholders approved the appointment of Mr Collin Vost and Mr Barry MacKinnon to the Board on 18 May 2009.

(b) Loan Agreement and Deed of Charge

On or about 1 April 2009, Baraka entered into a Loan Agreement with Cervantes whereby Cervantes agreed to advance up to \$100,000 to Baraka as an interest free loan repayable 6 months after draw down (**Loan Agreement**).

Under the Loan Agreement with Cervantes, if Baraka does not repay the \$100,000 loan within 6 months, penalty interest will be charged at 12% per annum thereafter.

Baraka also agrees to issue 25,000,000 Shares at a deemed issue price of 0.1 cents per Share to Cervantes as consideration for:

- (i) providing the loan to Baraka; and
- (ii) assistance in promoting the Offer to its shareholders.

Simultaneous with the Loan Agreement, Baraka executed a Deed of Charge in favour of Cervantes creating a floating charge over all of the assets of Baraka to secure the loan provided by Cervantes under the Loan Agreement. This Deed of Charge contains provisions that are usual for a charge of this type.

(c) Option and Share Sale Agreement

On or about 1 April 2009, Zurich and Mr Max de Vietri, the former Chairman of Baraka, signed an Option and Share Sale Agreement whereby Zurich acquired an option over 25,000,000 existing Shares held by Mr de Vietri at an exercise price of 0.2 cents per Share.

This option to acquire the Shares held by Mr de Vietri is exercisable within a 6 month period immediately following Baraka's reinstatement to official quotation on ASX.

(d) **Farmin and Assignment Agreements**

On or about 21 May 2009, Baraka signed two Farmin and Assignment Agreements with Northern Territory Oil Limited (**NT Oil**) that provide for Baraka to earn 75% of EP 127 and EP 128 in the Georgina Basin in the Northern Territory.

Under the agreements, Baraka must pay to NT Oil a non-refundable deposit of \$5,000 on signing each agreement.

The agreements provide that NT Oil grants to Baraka the right to maintain the 75% interest in each of EP 127 and EP 128 by funding 100% of the cost of exploration on the permits up to the completion of an exploration well. Funding thereafter will be in accordance with each party's respective interests in each permit.

Subject to consent of the Minister, Baraka will be the operator of each permit under the terms of the agreements.

Either party may withdraw from the permit joint venture at any time by notice in writing to the other party, in which case that party shall have no further rights in the permit and shall assign its interest in the permit to the non-withdrawing party.

The agreements are subject to Baraka's Shares being reinstated to quotation on the ASX within three months of the execution date. The agreements are also subject to NT Oil and Baraka executing a joint operating agreement on standard terms covering the joint venture on each of EP 127 and EP 128 and the parties obtaining all necessary governmental consents and approvals to the transaction, including the consent of the Minister.
